

Fri₃Oil System International Training

13th and 14th December, 2018. Almería, Spain

RefriApp, S.L. organizes the 5th F3OS International training at our Factory in Almería, Spain.

The training will consist of a theoretical part in which we will learn why R&AC circuits must be cleaned; POE oils hygroscopicity; compressors damage; HCFC+MO retrofits to HFC+POE; water problems when a heat exchanger is communicated; refrigerants recycling, etc.

Day 1: Theory and oils cleaning practice.

- 09:00h: Welcome, RefriApp presentation.
- 09:30h: Needs of R&AC circuits cleaning.
- 10:00h: Industry solutions vs. RefriApp method.
- 10:30h: coffee break.
- 11:00h: How Fri₃Oil System Works.
- 14:00h: Lunch break.
- 15:00h: System performance & technical spec.
- 16:00h: Special cleaning applications.
- 16:30h: Practice: Acids & Oils removal and refrigerants recycling practice.
- 18:00h: end of the day.

Day 2: Water removal practice.

- 09:00h: Start flushing practice with a water chiller unit with water in the refrigeration circuit.
- 10:30h: coffee break.
- 14:00h Lunch break.
- 17:00h: Refrigerant recovery, and circuit drying.
- End of the training.

Price: **300€/person. It includes lunches & coffee-breaks.**

Place: **RefriApp facilities.**

C/ Sierra Alhamilla, 47. P.I. La Juaida. 04240. Viator. Almería, Spain.

Hotel recommendation: **Elba Hotel Almería.**
